Feet in motion
The world is waiting for you.

And that is reflected in our Pure Care diabetic shoe collection for both women and men!
Discover an extensive selection of fashionable models, specially developed on women's and men's lasts, and perfectly suited for the diabetic foot.

Women
This collection includes no less than 34 women's models, divided across different soles:

- 9 models with a lightweight EVA - outsole
- 18 models with a sporty PU - outsole (think sneakers!)
- 7 models with a durable TR- outsole

Men
For men, we present 27 models, each with their own character:

- 13 models with a comfortable EVA - outsole
- 6 models with a PU - outsole for a modern look
- 8 models with a durable TR- outsole for added wearing comfort

All soles are easy to glue and can be adjusted as desired. This brochure offers a complete collection of shoes that are not only stylish, but also provide optimal support – specially designed for the diabetic foot.

FEATURES OF THIS COLLECTION:

- All models are produced on so-called narrow-heel lasts, and the forefoot section is designed in a "natural shape" that provides more space for the toes. The narrower heel ensures the shoes do not slip at the heel.
- All shoes are equipped with a "diabetic lining" that is highly comfortable, absorbs moisture well, and, unlike leather, does not harden when exposed to moisture. This makes the lining extremely suitable for the diabetic foot.
- Additional reinforced insoles are available upon request, not permanently integrated in the shoes.
- Optionally, we can supply reinforced soles separately.
- All shoes are available in UK ladies sizes 3-9 and men sizes 6-12. (including 1/2 sizes)
- Our diabetic shoe models are available in 4 width sizes. Please also refer to the width indication on the production articles (individual customization).

Walk better,
feel great,
live well.

Discover a new standard in diabetic shoe protection.

This collection takes an unprecedented step forward: innovation and design come together like never before.
Every shoe in this line is specifically tailored to meet the needs of people with diabetes – without compromising on appearance or style.

Our designs combine thoughtful features, high-quality materials, and a contemporary look that perfectly suits the modern wearer.
Every detail – from the soft finish to the carefully selected colors – emphasizes the focus on comfort and aesthetics.
This collection elevates both functionality and design, appealing to anyone who values quality, wearing comfort, and fashion.

HOUSE SHOES

PURE CARE

Comfort and style – even at home

For everyone who doesn't want to compromise on comfort and appearance within their own four walls, Nimco presents the collection of diabetic house shoes.
Specifically developed for people who require special foot care – and who want to enjoy the feeling of home in a stylish and responsible way.

Our house shoes combine the best of both worlds: the soft comfort you expect from a slipper, with the elegant look and stable support of a real shoe.
This way, you can enjoy protection, convenience, and appealing design all day long – from the living room to the kitchen.
Not just simple slippers, but house shoes that are made to be seen!

Choose safety, comfort, and design – even at home.

HOUSE SHOES

Comfort and style – even at home
For everyone who doesn't want to compromise on comfort and appearance within their own four walls, Nimco presents the diabetic house shoe collection. Specifically developed for people who need special care for their feet, yet still want to enjoy the feeling of home in a stylish and responsible way.

Our house shoes combine the best of both worlds: the soft comfort you expect from a slipper, with the elegant look and support of a real shoe.
This way, you enjoy protection, convenience, and a stylish appearance all day long – from the living room to the kitchen.
Not just simple slippers, but house shoes you'll be proud to wear!

Choose safety, comfort, and design – even in your own home.

PURE CARE

from NIMCO

Our special shoes for diabetics offer numerous benefits for people who place great value on comfort and support.
Thanks to their specific features, these shoes relieve foot pain while providing stability. In addition, they accommodate custom insoles, allowing for a personalized fit that supports optimal foot health.

With a focus on comfort and functionality, our special shoes improve overall mobility and quality of life.

Walk better,
feel great,
live well.

NIMCO MADE 4 YOU

Pure Care Collection

**Nimco manufactures shoes in various styles and for multiple indications, and distributes them.
Our goal is to preserve the health and well-being of your feet. Producing shoes with a perfect fit is a key contribution to improving the mobility and quality of life of our customers.
A crucial requirement for achieving this is the close connection between our company, our employees, and our customers!**

NIMCO MADE4YOU – WE KNOW HOW

For over 100 years, Nimco has had experience in the manufacturing and distribution of shoes.
Our sales team includes, among others, highly qualified orthopedic shoe technicians.
Nimco Portugal is located in the heart of the Portuguese shoe industry. There, we place great emphasis on training our employees to ensure our high-quality standards are always maintained.

Nimco Portugal is an APCER-certified company for:
Quality – ISO 9001
Environment – ISO 14001
Occupational safety and health – ISO 18001

The production is state-of-the-art, professional, and complies with current European regulations.

Nimco Made4You – as a corporate group – has complied for many years with European regulations and standards (ISO 9001) for the development and distribution of orthopedic and special footwear.

INDIKATION:

Diabetic polyneuropathy with severe neuropathy (loss of sensation) and pronounced angiopathy (circulatory disorders), combined with existing or healed ulcers and/or other irritations that can lead to pressure sores.

Xsensible Inside Stretchleather

1. The technology ensures that the leather stretches 70% in width and 30% in length.
   Tests have shown that the leather returns to its original beautiful shape even after 500,000 steps.
2. Xsensible Inside is patented and consists of multiple layers, each serving a specific function.
   The top layer is made of genuine leather that has been made particularly stretchable. The bottom layer consists of Lycra, with a natural latex foam in between.
   The Xsensible Inside stretch leather is available in three different versions:
   Stretch-Nappa: identical to regular Nappa leather but with a closed structure.
   Stretch-Silky: Nappa stretch leather with an "open" structure, giving the shoe a sportier character, and there is also Stretch Velours (suede).
3. Almost all shoes in this collection are equipped with Xsensible Inside stretch technology.
   This allows the shoes to immediately adapt to the foot – for a unique fit!
4. The Xsensible Inside stretch leather is naturally breathable and ensures a pleasant foot climate – especially healthy for your feet.

Viprex®
Reinforcement soles

Upon request, you can order these special reinforcement soles so that a sole reinforcement can be integrated into this shoe collection.
These reinforcement soles can be quickly and easily customized and glued individually. They are thermoplastically moldable and have a thickness of 1 mm.

These Viprex reinforcement soles are also excellently suited for your sole reinforcements in orthopedic shoe construction and represent an excellent alternative to carbon.

Viprex Reinforcement soles:
